

We are **TOTALLY** looking for like-minded GPs to join our team!

A bit about us:

We are a thriving, passionate, collaborative and independent, medical practice run **totally BY doctors, FOR doctors, and in service of our vibrant, villiage community.**

Annie and George Marshall are clinically active GPs and locals to the area. We are committed to providing an inviting practice environment, inclusive culture and industry leading infrastructure to our affiliated GPs, so they can practice their best medicine.

We are engaged and invested in the wellbeing of the whole team, because together we are much greater than the sum of our parts.

At Rozelle Total Health, we:

- are for doctors who value themselves and deliver exceptional care and value to their patients.
- run an innovative and tech driven practice; constantly working to maximize efficiencies and reduce red tape and admin for our GPs.
- are a privately billing practice with a highly educated and health literate patient base.
- attract engaged team players who want to be part of the rich social fabric of our community.
- are for GPs that care about the 'Total Health' of their patients, and are passionate about proactive and preventative care. We partner with our patients on their 'Total health journey'. "Churn and burn" episode-based care does not align to our purpose or values.

RTH is easily the best practice I've ever worked at. Friendly work environment, appropriate remuneration, so well run you barely notice – there is nothing not to like! They truly think of everything and go the extra mile to make a great experience for both doctor and patient. I am sad to be leaving.
